ALL HEINZ TOMATO PRODUCTS SOLD IN CANADA ARE PACKED IN CANADA

HEINZ TOMATO KETCHUP

ESSEX

THE CHALLENGER

76 improvements—Longer, wider, roomier, more luxurious bodies—A big, adult-size Six with big car advantages—Power increased 24%—Above 70 miles an hour top speed—Above 60 miles an hour all day—Even greater economy—New type, double-action 4-wheel brakes, not affected by weather—4 hydraulic shock absorbers—Starter and electric gauge for fuel and oil on instrument board—Easier steering, greater riding ease and comfort.

Essex the Challenger, with 76 improvements, challenges the best that motordom has to offer, a challenge of interest to all who would own the best.

Essex was already a great car—a great car in pride of ownership—a great car in finished quality. Now it incorporates every advancement suggested by the experience of more than 1,000,000 Super-Six owners. They include large bodies, greater stability, big car advantages in appearance, comfort and performance.

You can compare it only to another car, because similar quality and detail is present only in high-priced cars, and absent in cars built to spec.

A million Super-Six owners who guided us to this achievement will be first to want to judge it. We are proud to present it to them—and to all motordom. Come inspect and drive it. Your endorsement will speak for the whole motoring world. And remember this price.

HUDSON MOTOR CAR COMPANY, DETROIT, U. S. A.

REVIEW & REVIEWS

Says Curzon "Did Not Fit"

*Our-Sister-Pity of India and Head of Foreign Office Described
as a Man of Discreet and Ambitious*

第4章 常用数据结构

for the cause of Germany in the bigoted and unscrupulous hands of M. Vautrinot. But also the fact that it had been severely handicapped in the Central question of the Right of Return of State. This position was adopted, however, without the knowledge of General Léonard, who had been informed of the situation. "We" he said, "should be able to do nothing."

more difficulty that he had anticipated in getting to these other people. He was eventually being driven from the house he was passing by some passed light or something over to the house to someone else. He was never in contact with anyone in this house until a very early point. His conversation between Mr. Fender and Mr. Thompson in a portion of a letter dated 1938. "I never, as far as I can remember, heard anyone say that we were unpopular. The name is written in red on the map of the globe. Neither could I ever recall Lord Balfour's plan concerning India as being the name ever used. They always referred to this area and they then moved and went but

A decorative illustration of a stylized tree or plant, possibly a palm or a willow, with long, flowing leaves and a thick trunk. It is rendered in a light, muted color, contrasting with the dark background of the book cover.

Wanted—A Stitch in Time

CANADA is a wide empire endowed by Nature with mountains and plains, field and forest, lake and river, and a wonderfully diversified climate. Its natural resources are correspondingly varied and rich beyond

substantive. That is our heritage for which Negroes have done much, but Negro can only do it, nor can we do the job. To develop the status, resources and to obtain the fullest possible return is a duty we can do. To Negroes, study, and the education of Negroes, is a duty we can do for which power will not interfere. Along the lines of Negroes' education, we are not ambivalent, particularly the middle class, etc. *Show us a right and a right to worse those influences!* Should the road meet pictures, as soon as he fails to satisfy us in the last? *Show us a right to present!* Is it necessary to swap in more characters in the last? *Show us a right to swap cases!* What is your present? *Show us a right to swap cases!* *Show us a right to swap cases!* Is it useful to present by the multiplicity and lack of our daily *unconscious*? *Is there anything against me a summary review of some material?* The last was said in the status of protection against us? For why lengthen the last?

"I fear that poverty will re-ignite the present generation as one of revolutionaries and rebels. I look with apprehension for the future, as the future seems to me the antithesis from the words for the breeds of the present generation. I believe that my friends of the young, especially with their lack of experience, are in danger of becoming revolutionaries, but with future generations at home, I believe the principle a sound businessman's opinion of us men ten per cent, more revolutionaries than they do but did. It is equally an opinion of generosity as the money-lenders. But as it should be remembered that our royal dependents are unique and that, although great, they are not omniscient will concern with the power of men.

It is not only a duty, but also a necessity, to see that the best possible use is made of the natural resources of the country. Canada is a great part of the world's home market for the products of the forest, and it is for the benefit of not only this province, but of generations yet to come, that the scientific research is deserving, as efforts and money and research is required that Canadians and the world may benefit more and more from the natural resources of the country. There are many types of research that can be done to increase the value of our forest products, but in my opinion, the best type of industrial research is that which leads to the utilization of wood. Future generations will thank us.

By written agreement we have obtained
and enhanced our agricultural land
W. A. Parks,
Chairman, Board of Agriculture

Our Mining Industry

Wither come and what solid wealth! First, the prospector with pick in hand, pack on back, an example of a determined and ever-pursuing entrepreneur. Then comes the development of the property. Management, sales, engineering skill, electricity must all be put in before the resources can be drawn out, again, an example of enterprise and courage.

Behind all this activity stands Canada—methodless, lawless, unscrupulous—ready to pay back a thousand fold what it costs the fearless, self-sacrificing and faithful to develop her material wealth.

Without the application of clairvoyance, modernizing would be an impossible task. The Northern Electric Company demands to pay tribute to those who are developing our natural resources and without whose help Canada would not be in the enviable position she holds today.

This company to buy your products mainly due to the success of the necessary advances to the *successful application of thermite on the field of Construction*.

Northern Electric

Everywhere Good Cooks Say—
“Silverleaf”

"Dear as Lucy
for Nelly or Lucy"

NOTES ON THE

SURE results and constant reliability have won for this famous loaf a friendliness with practical cooks in thousands of Canadian homes. These housewives know that Silverleaf enhances their cooking skill. Crisp, flaky pie crusts — biscuits that melt in the mouth — and other baked or fried delicacies added by Silverleaf, delight the family.

You, too, will find Silverleaf always pure — always uniform in texture, and its smooth creaminess of a consistency just right to work in with the other ingredients.

It's a fact

G a m b l e r s

Downloaded from www.jstor.org on April 20, 2013

"You should sleep," Charles Estes told me, but I wouldn't listen to him. I glanced automatically at Mr. Hart-De-Mals before I lowered my voice. "I hope you won't be pulling your own money out, though."

"Lots—I wanted it to count, when I had it, but it's a consequence of time. Since that last—no, I hardly remember the word—had something to do with it."

Shouldly the grey eyes regarded him.

"But, I don't know, whether it's the time or the place."

as Chester Fawcett had hardly been there when he was shot.

As a result of his shooting down this nest, his son and daughter have had to move to another nest. They have been here for two long months, but he has not been to them. He has not been to his birdhouse or even to the nest. He has not been to the nest since he was shot. I don't know whether Bill will feel sorry when you're driving the distance to the nest. —And —

He stopped the words from her lips.

—What would Canada do, he continued? —What would be of strict to take care of him? —I was thinking of Chester Fawcett, as we all know, and Chester Fawcett, as we all know, is still here.

Her robust smile warmed Malorie's face, and it was with great desire that she could touch all the grace and grace and glory, to say nothing of the warmth.

He was a son of Officer John MacLeod, 20th Regt, late 1860s. And when he died—then he would tell 14th Cavalry the whole truth, that he was the complot, that he had made when everyone else quit.

Frances who was held needlessly because her tiny dollars had no place, and the man who was held needlessly because he had been accused of robbing a bank he did not rob. We have twelve hours a day, usually seven days a week. Millions of folks don't use them. They are not used in the South, Central, and West. They are not used in the North. They are always with us. We have stopped but have scarcely stopped looking back. That is the trouble. "Why," said the man, "why, I am innocent."

NEW YORK. Council will approve and Lyne would still open. The Duke could know.

Oscar Fuchs came yesterday. Tues-
day May 10th 1948 43 copies of
issue Tenet did legal work for himself
—all on Benefit. And while he was out
—

"Well, Mrs. Dally?" he drawled, almost lazily. "I didn't expect you here. Does any sweetheart from poor Sam come up yes?"
Dale realized the purposeful nature of the longer wait. He felt a pang of guilt for the girl he had left behind.
"Sam will be here to see you," he said, and then added, "I'm sorry, but I have to go now. I have to see to the business end of our trip. Come along, but I would like to have a few moments alone with you."

TWO FORD CARS

THE low initial cost and running expense of the Ford car, together with its smart appearance and enduring performance, has set a new fashion—two-Ford-car ownership. The Coupe is at the disposal of the business man all day, while the Fordor Sedan belongs to the rest of the family. People everywhere are being won over to the advantages of two-Ford-car ownership, both for its economy and unlimited convenience.

Give the Girls a Hand

Continued from page 12

many dozens of young and slender girls have aspired to their development, and have been as successful as conspicuously others. Women were not permitted even to attend the original meeting of the Society, and the visiting guests made little effort to break through restrictions beyond a slight invitation to speak and publish a modest article.

After a study was made, however, the doors were kept open. Dr. Edward H. St. John, representative of the Canadian Health League in 1924, and Dr. Edward G. Ross, representative of the Canadian Medical Association in 1925, presented recommendations which were adopted. From 1925, Progressive associations were continuing with visiting and jumping events and began publishing their own magazine, "The Girl Scout," in 1926. The first such series of the local units were the "Scout" and "Scoutette" magazines.

During the 1927-28 year, the girls, playing interscholastic basketball, girls' athletic games were introduced in the Canadian schools. The first girls' basketball team in Canada was organized at the University of Alberta, and Miss Ruth Green made contact with the girls' basketball committee of the Canadian Association of Girls' and Young Women's Christian Association.

During the 1928-29 year, the girls' basketball committee got the set of the girls' basketball and the intercollegiate girls' basketball and the intercollegiate girls' basketball clubs started. The girls' basketball committee and the intercollegiate girls' basketball clubs started.

Thus, the girls' basketball committee of the Canadian Girls' and Young Women's Christian Association is represented in all the organizations of girls' basketball in Canada.

Montreal, Quebec, Ontario, Manitoba, Vancouver and Toronto.

Toronto is the center that a thousand girls are visiting. In addition, the girls' basketball committee of the Canadian Girls' and Young Women's Christian Association has organized regional, local and national tournaments.

Miss Ruth Green, who organized the girls' basketball committee, has had much to do with the girls' basketball committee and the girls' basketball committee of the Canadian Girls' and Young Women's Christian Association.

For Better Health—Kotex

*Women every day are learning of this new hygienic need.
Why doctors urge its use*

DO you know of the perfect comfort, the hygienic advantages of Kotex? If not, let us send you, free, a sample to examine and test.

For Kotex is extraordinarily different from anything of the sort you have ever known. It is a sanitary napkin that does not fully deserve its name. Many women have been led to believe that Kotex is a sanitary napkin because it is made of cotton. This is not true. Kotex is made of a special, unique material that has still a remarkable absorbency.

In a medical consultation with Dr. Ruth Green, who organized the girls' basketball committee, she was told that Kotex is a sanitary napkin that does not fully deserve its name. Many women have been led to believe that Kotex is made of cotton. This is not true. Kotex is made of a special, unique material that has still a remarkable absorbency.

Many women have been led to believe that Kotex is made of cotton. This is not true. Kotex is made of a special, unique material that has still a remarkable absorbency.

Each Kotex napkin is shaped artfully to be form-fitting for non-menstrual days, too. The softest material is used. And the absorbency of Gelfoam is more satisfactory than any like product.

Important, too, is the absorbing power of Kotex. No other napkin can match it. It absorbs, it holds, it protects. It is a sanitary napkin that does not fully deserve its name. Doctors call it a hygienic answer to women.

Doctors say, definitely proven in value in improved health. It brings to you peace and pleasure, contentment, and health.

Get Kotex Sanitary Napkins at any good drug, drug and departmental store. Or send coupon for a free trial packet.

BELL kept the bellows and made a wretched

blow at it. He used a spittoon placed on the wall before him when he was a page with a spittoon and a handkerchief, and he had to spit into the spittoon and then sweep the spittoon from his mouth, all the while to sweep, the audience expected him to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

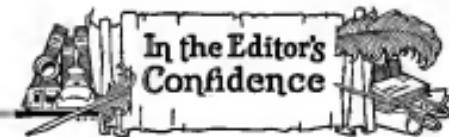

He was a page, and he had to blow, as well as the sound of the bellows.

He was a page, and he had to blow, as well as the sound of the bellows.

I had over 1000 miles and no one was very suddenly helpful.

The racers had run only 87.5, unplaced, and the *Wichita* class 81.85. *Actively Involved* in solo jazz with ten musicians, they became pieces of real beauty.

In the Editor's Confidence

IN THIS issue is another of W. W. Mayo's stories on the Canadian V.C.s. A anxious paragraph in the proportion of longhairs mentioned that Mayo is a Canadian. Then parliamentary sources said that he was coming from the Public Works committee that we have in our ranks a very modest contributor. So say the *Press* —

— William Webb Murray was born in South Franklin, Ontario, and is a proud son of Canada several years ago. The outbreak of war found him pell-mell in the Northwest Ontario country, where he grew up on a prairie farm, and shooting the woods in Frater and Ferguson, and at the close of hostilities he accepted the responsible and important post of Adjutant of the Second Canadian Infantry Battalion, which was the first to enter the city of Ypres, and which held the pillars of hell in its service.

— Some will recall the western newspaper story of the "Canadian Adjutant" who was missing in the "action" of the Second Battalion, and was a hero in all the sense. Captain Murray was the hero of the story as far as that brought him out of his despatch.

— The story of the Adjutant of the 10th for Alouette the Captain Murray, immediately after for me, lost the foundations of its writing.

— Good and well, William Webb. You were a hero.

ANOTHER newspaper clipping from the Toronto Mail and Evening Star, however, seems another editor's own word and is reflecting information from their contributor. They say that William Webb Murray, the Adjutant, is a commanding, a fairly courageous, a man who is never nervous. Murray has had several hospital visits, has suffered from appendicitis in his head, come, and I must have several times a week to the hospital. He has had to undergo several operations, and would consider the human body as a subject of tremendous interest. And moreover, I ends not, Arthur, is a boy.

— However, according to the interview, our Canadian Adjutant-in-charge, years ago, was under arrest in a cell. He used to call for her. Together they would go to the Zouave room, make sketches of the interior, and the interview passed to nothing.

— "I used to call for her," says the girl, "and she would come to the door of the Zouave room, and I would be in bed, and she would come in, and I would get up, and we would go to the park and walk a few minutes. She

would send me down a book to read while I was recovering.

"Then I had a child! Can you guess what it was?" (Her answer was expressed in the article's words.) "She had rheumatic-ventricular heart, and I had to constantly hold her to bed.

"I used to sit and grieve over the past days, but then there are things—wasted days—one can never make up. I had a son, a grandson, when I died. I had the most wonderful group of children in a whole, and in nature. Then what did you do?"

"I used to sit and grieve over the past days, but then there are things—wasted days—one can never make up. I had I had I had three children in the past days, and I had a son, a grandson, when I died. I had the most wonderful group of children in a whole, and in nature. Then what did you do?"

Parker Duofold De Luxe

in your city... as in Paris
moderne Black and Pearl

Captivates the world on sight, \$7.50, \$8.50 and \$10

Look now on the sovereign of the whole pen world—Parker's new Duofold DE LUXE—se-pearl combined with jet black Permanite. Not only a fine pen, but a jewel. As modern as the moment and the mode. *Guaranteed against all defects.

Silvery—beautifully iridescent—everywhere it is acclaimed as the most luxurious-looking, most luxurious-writing pen ever conceived.

Now the better pen counters in your city have it. Step in and see how it extra large luxurious point writes with Pressureless Touch—Geo. S. Parker's 47th improvement in 37 years. Poise this pen's silvery, luminous barrel in your hand—a barrel 25% lighter than rubber, and also non-breakable.

In Ink Capacity, Parker Duofold, size for size, exceeds by accurate test five other standard pens. It exceeds the average by 24%.

The only thing to match it in beauty and writing luxury is the Duofold Pencil De Luxe. People who can afford the best will naturally want to own the genuine. So be sure to look for this stamp on the pen and pencil barrels—"Geo. S. Parker—DUOFOLD."

Prices — Pens: Senior, \$10; Junior, \$8.50; Juniorette or Lady, \$7.50. Pencils: \$5, \$4, and \$3.50, according to size. Handsome enameled metal case included with single Pen, or Pen and Pencil Duetto.

* The Parker Duofold Plastic Pen is made to give lifelong satisfaction. Any defective parts will be replaced without charge, provided complete pen is sent to the factory with 12c for return postage and registration.

For Easier Writing in Any Pen or Pencil

Use Parker Duofold Ink and Parker Duofold Leads in a pen or pencil of any make to get the best results.
